LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Previously Presented) A wrinkle reducing composition, comprising:
- (A) a wrinkle reducing active, comprising a nonionic polyhydric alcohol humectant and a water-soluble wetting agent selected from the group consisting of a cationic surfactant, a non-alkoxylated nonionic surfactant, and an anionic surfactant;
 - (B) at least one material selected from the group consisting of:
 - a salt having the formula: AM, wherein A is a cation selected from the group consisting of sodium, calcium, potassium, and magnesium, and M is an anion selected from the group consisting of sulfate, chloride, nitrate, carbonate, borate, and carboxylate;
 - uncomplexed cyclodextrin; and
 - a lubricant selected from the group consisting of a water-insoluble cationic softener, cyclomethicones, and fatty acid esters of mono- or polyhydric alcohols or anhydride thereof containing from 1 to 8 carbon atoms; and
 - (C) a liquid aqueous carrier.

2. (Previously Presented) A composition according to Claim 1, wherein said wetting agent is a cationic surfactant.

3. (Previously Presented) A composition according to Claim 2, wherein said wetting agent is a cationic surfactant, of formula:

wherein R¹ is C₁₀-C₂₂ hydrocarbon group, or the corresponding ester linkage interrupted group with a C₁-C₄ alkylene group between the ester linkage and the N, each R is a C₁-C₄ alkyl or substituted alkyl, or hydrogen, and the counterion X⁻ is a softener compatible anion.
